# Q3 |2021

**Grøntvedt Group AS 29 November 2021** 

# Introduction to Grøntvedt Group

The Grøntvedt Group is one of the world's leading providers of pelagic fish, of which various herring and mackerel products account for most of the company's revenues. The group has four business units: Pelagic, VAP, Nutri, and Pharma (under development).

Grøntvedt Pelagic's main activity is processing of pelagic fish for human consumption, mainly herring from the Norwegian Sea and the North Sea. Grøntvedt VAP sells finished consumer products under the brand Klädesholmen, as well as private labels. Grøntvedt Nutri produces fishmeal and fish oil to the aquaculture industry and the pet food industry, and the activity of Grøntvedt Pharma, will be production of omega 3-rich refined fish oils for human consumption. In Pharma, product development is currently ongoing.

In 2020, Grøntvedt completed its investment in a new Grøntvedt Nutri plant, and in January 2021, the group invested in four new processing machines, significantly increasing its processing capacity. The investments position Grøntvedt Group for further growth, and the increased focus on value added products through VAP and Nutri, is expected to improve the group's profitability going forward.

Grøntvedt is majority owned by 62.2 per cent by the Grøntvedt family (through Grøntvedt Invest), 31.3 per cent owned by BEWI Invest (owned by the Bekken and Thoresen families) and 6.5 per cent by Klädesholmen Intressenter AB.

#### Grøntvedt Pelagic™®

# Grøntvedt VAP™®

#### Grøntvedt Nutri™®

#### Grøntvedt Pharma™®

# Fresh, frozen and marinated herring, mackerel and roe

Herring and mackerel is sourced through auctions and agreements with fish vessels and trawlers

# Marinated herring, caviar and spread products

Finished consumer products sold under the brand Klädesholmen and private label

# Fishmeal and fish oil for fish feed and pet food industries

Fishmeal and fish oil are produced from offcuts available from the processing in Grøntvedt Pelagic

# Omega 3-rich refined fish oils for human consumption

Ongoing product development to utilize crude oil coming from Nutri into refined omega-3 rich products

# Highlights for the third quarter and first nine months of 2021

- Revenues of NOK 146,1. million for third quarter and NOK 560 million so far this year
- EBITDA of NOK -8.8 million for the quarter, and NOK 19.4 million for first nine months
  - Processing volumes have significant seasonal variations related to catch seasonality for mackerel and herring, whereas the fourth and first quarters of the year are normally peak season
- FOOD (Pelagic) raw material volume of 12 449 and 44 018 tonnes for third quarter and first nine months of 2021 respectively, significantly up from the corresponding periods of 2020
- Acquisition of Swedish herring producer Klädesholmen Seafood AB completed late June 2021
- In September 2021, Grøntvedt successfully issued senior secured bonds of NOK 600 million

### **Financial review**

The Grøntvedt Group comprises Grøntvedt AS, Grøntvedt Group AS, Grøntvedt Pelagic AS, Grøntvedt Nutri AS, Klädesholmen Seafood AS, Flexbase AS and Grøntvedt Eiendom AS. The accounting policies are in accordance with the Norwegian Accounting standard.

Grøntvedt Group was established late June 2021, in relation to the acquisition of Klädesholmen Seafood AB and the restructuring of the companies prior to the bond issue in September 2021. Consequently, there are no comparable numbers for the corresponding periods of 2020.

#### **Profit and loss**

Third quarter of 2021

**Revenues** for the third quarter of 2021 amounted to NOK 146.1 million, of which NOK 87.6 million relate to the Pelagic/food segment, NOK 32.1 million to the Nutri/feed segment and NOK 26.4 million from VAP/Klädesholmen.

All Grøntvedt's revenue generating activities have significant seasonal variations due to harvesting seasons, with the fourth and first quarters being peak season, and thus revenues are expected to increase from both food and feed operations the coming two quarters.

Raw material volumes for the Pelagic/ food segment were 12,449 tonnes for the quarter, up from 5,654 tonnes in the corresponding quarter in 2020. The group has prioritised to purchase more herring this quarter (instead of mackerel).

For the first nine months of the year, revenues came in at NOK 560.0 million.

**EBITDA** came in at a negative NOK 8.8 million for the third quarter, and NOK 19.4 million so far this year.

Margins in the food segment are considered stable. For the group, margins are expected to increase when revenues from the feed and VAP segments increases, due to higher margins in these segments.

The group expects increased costs in general, although the group's pricing model compensates for increase in raw materials and other input factors.

**Cost of goods sold** amounted to NOK 91.3 million for the third quarter and NOK 345.8 million for the first nine months of the year.

Inventories change according to seasons. The group will normally have a build-up of inventory in the peak

production season, i.e., the fourth and first quarters of the year. All build-up of inventory is products already ordered from customers. For further comments on the inventory, see comments to the financial position.

**EBIT** came in at a negative NOK 36.3 million for the quarter, mainly explained by depreciation of goodwill under NGAAP which started early in the quarter. In addition, the third quarter is a seasonally low quarter, with reduced activities in the fisheries.

For the first nine months of 2021, EBIT came in at a negative NOK 19.2 million.

**Net financial items** amounted to a negative NOK 10.8 million. Part of the net financial items relates to premature repayment of loans in relation to the bond issue, combined with an increased need for financing prior to the bond issue.

For the first nine months of the year, financial items came in at a negative NOK 31.6 million.

**Taxes** were recorded as tax income of NOK 10.4 million for the quarter and NOK 11.2 million for the first nine months of 2021.

**Net result** ended at a negative NOK 36.8 million and NOK 39.7 million for the third quarter and first nine months of 2021 respectively.

#### Financial position and liquidity

**Consolidated financial position** 

**Total assets** amounted to NOK 1 947.3 million as of 30 September 2021, compared to NOK 1 123.6 million on 31 December 2020. The increase mainly relates to goodwill booked at NOK 860.4 million at the end of the third quarter.

Book equity has historically been calculated based on a continuation principle. Following the issuance of

new shares related to the Klädesholmen acquisition late June, the group was required to reflect real values as an accounting principle.

Property, plant, and equipment amounted to NOK 363.6 million on 30 September 2021, down from NOK 375.4 million at year-end 2020.

Inventories stood at NOK 607.7 million at the end of the period, up from NOK 556.7 million at the end of last year. As mentioned above, the group experiences variations in its level of inventories, related to catch seasonality for mackerel and herring in Norway.

For the third quarter, the inventory level is higher than normal, due to several factors. Firstly, raw material prices have increased. Secondly, the processing volumes are higher than normal. Thirdly, a challenging transport situation, combined with tax-free quotas consumed early in the third quarter, caused reduced and/ or delayed shipments.

Further, compared to 2020, the group has an increase in production of raw material, leading to higher inventories during the production season.

Accounts receivables amounted to NOK 56.1 million, down from NOK 91.4 million at year-end 2020, explained by seasonality, where the fourth quarter normally is the peak quarter.

Total equity amounted to NOK 1 106.1 million on 30 September, representing an equity ratio of 57 per cent, compared to NOK 267.9 million on 31 December 2020.

Net debt amounted to NOK 567.1 million on 30 September 2021, compared to NOK 482.9 million at year-end 2020. Grøntvedt's interest terms are NIBOR 3 months plus a 5.25 per cent margin. Covenants for the bond loan includes an equity ratio of more than 35 per cent, and interest coverage ratio (EBITDA/ Net financial charges) of 2 or more. For further details about the terms, see note 5.

Cash and cash equivalents were NOK 13.9 million at the end of the third quarter, compared to NOK 1.6 million at year-end 2020.

#### Consolidated cash flow

Cash flow from operating activities amounted to a negative NOK 57.7 million for the third quarter, including an increase in the working capital of NOK 55.3 million, following normal seasonality. For the first nine months of 2021, cash flow from operating activities was a negative NOK 26.8 million.

Cash flow used for investing activities amounted to a negative NOK 3.6 million and NOK 81.5 million for the third quarter and first nine months respectively, of which the latter includes NOK 75.0 million for the acquisition of Klädesholmen.

Cash flow from financing activities came in at a positive NOK 70.7 million for the quarter, due to bond issue and refinancing of debt. For the first nine months of the year, cash flow from financing activities was NOK 120.6 million. This includes the capital increase of NOK 75.0 million from the share issue in June related to the Klädesholmen transaction.

### **Organisation**

As of 30 September 2021, Grøntvedt Group had approximately 250 employees.

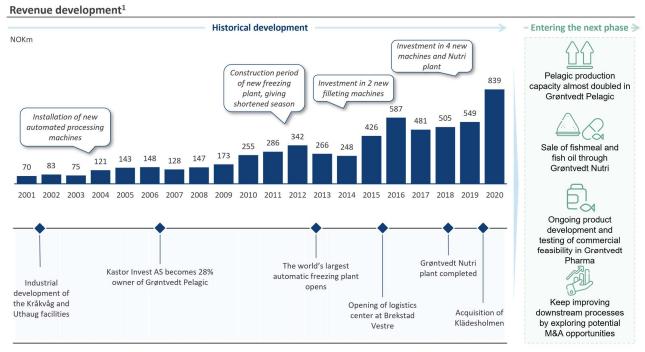

There are signification seasonal variations to the number of people working for the group, linked to the harvesting season.

Grøntvedt expects to strengthen its organisation going forward, mainly at management level, to secure growth and improved profitability from new business areas, including VAP, Nutri and Pharma.

# History and important events in the development of Grøntvedt

Below is a summary of important events and development of the Grøntvedt Group.

<sup>1 2001-2017</sup> for Grøntvedt Pelagic AS, 2018-2019 is pro-forma Grøntvedt AS (excluding Klädesholmen), 2020 and LTM Q2'21 pro-forma is Grøntvedt AS pro-forma and including Klädesholmen

# Important events in the quarter

#### Acquisition of Swedish herring producer Klädesholmen Seafood AB

Late June 2021, Grøntvedt acquired the Swedish herring specialist Klädesholmen Seafood AB. The acquisition was in line with Grøntvedt's strategy to become a fully integrated company, with plans for further development of the company's product range towards the consumer market.

Through the acquisition of Klädesholmen Seafood AB, Grøntvedt expanded in the value chain, from purchase of herring from fishing boats off the Norwegian coast, via processing and storage in own facilities, transport, and now also all the way to the grocery shelves with the quality products from Klädesholmen.

Grøntvedt has been supplying herring to Klädesholmen Seafood AB for more than 30 years, which has further processed the product.

In 2020, Klädesholmen Seafood AB had a turnover of approximately SEK 190 million, of which just over 90 per cent came from the Swedish market.

The acquisition was funded through a combination of NOK 75 million in new cash equity and NOK 75 million in Grøntvedt shares.

#### Issuance of NOK 600 million bond loan

In September 2021, Grøntvedt AS, the holding company of Grøntvedt Group, issued a 3-year senior secured bond of NOK 600 million, under the framework of up to NOK 900 million.

The use of proceeds for the bond loan is repayment of debt, payment of transaction costs and general corporate purposes including acquisitions and working capital.

Following the issuance of the new bond loan, all material debt within the Grøntvedt Group is included in the bond loan and a senior secured revolving credit facility (SSRCF) of NOK 250 million. The SSRCF is

provided by Handelsbanken and is a combination of a revolving credit facility and a guarantee facility.

The financing has an aligned covenant package, requiring an equity ratio of 35 per cent and an interest coverage ratio of >2.0x. No dividend distributions are allowed prior to an IPO. After an IPO, distributions will be maximum 50 per cent of adjusted net profit subject to a leverage ratio of 2.5x.

#### Outlook

All Grøntvedt's revenue generating activities have significant seasonal variations due to harvesting seasons, with the fourth and first quarters being peak season. The group therefore expects revenues to increase from both food and feed operations the coming two quarters.

During the autumn of 2020, Grøntvedt completed its investments in the new Nutri plant, becoming the world's first pelagic facility with both processing of food for human consumption, and animal feed, including fishmeal and fish oil to the aquaculture industry and the pet food industry. The combination allows the company to efficiently utilize 100 per cent of the raw material; No need for transport between facilities enable a unique freshness of the raw material, and thus high quality of the products from Nutri, as well as a low carbon footprint.

With the introduction of Grøntvedt Nutri, the group can utilize the fish trimmings from its raw material processing in Grøntvedt Pelagic, and thus take a larger part of the value creation across the value chain. Going forward, this, combined with start-up of commercial activities for Grøntvedt Pharma, is expected to improve the group's profitability.

#### Notes to the financial statements

#### Note 1 | Summary of accounting policies

#### **General information**

Grøntvedt Group is a producer of mainly herring and mackerel products. The group includes Grøntvedt AS, Grøntvedt Group AS, Grøntvedt Pelagic AS, Grøntvedt Nutri AS, Klädesholmen Seafood AB, Grøntvedt Eiendom AS and Flexbase AS.

Grøntvedt Group acquired Klädesholmen Seafood AB late June 2021, which means that figures presented as group figures for the third quarter of 2021 are representative for the Group's figures since the establishment. No comparable figures for the third quarter and the first nine months of 2021 are included in the report since the group first emerged late June 2021. Comparable figures as of 31 December 2020 are proforma.

The quarterly report was approved by the Board of Directors on 28 November 2021. The interim report has not been subject to audit.

All amounts are in NOK 1 000.

#### **Accounting policy**

The quarterly report has been prepared in accordance with NGAAP.

#### **Going Concern**

The quarterly report has been prepared under the going concern assumption.

#### Revenue recognition

Revenues from the sale of goods are recognised in the income statement once delivery has taken place and most of the risk and return has been transferred.

#### Inventory

Inventory is valued at the lower of cost and net sales value.

#### Receivables

Accounts receivables and other receivables are recorded in the balance sheet at nominal value less a provision for doubtful accounts.

#### **Pension liabilities**

Funded pension liabilities are not recognized in the balance sheet. The premium paid is regarded as the pension cost for the period and classified as wage cost in the profit and loss statement.

#### Cash flow statement

The cash flow statement is presented using the indirect method.

#### Note 2 | Sales revenues and segment information

#### Segment information

Grøntvedt Group's activities are currently reported in three segments: Pelagic, Nutri and VAP (value added products). The fourth segment, Pharma, is under development.

#### **Pelagic**

The Pelagic activity involves receipt and processing of pelagic fish for consumption. Pelagic fish for human consumption is mainly fresh, frozen, and marinated herring, mackerel and roe.

The production plant is located at Uthaug. The fish is mainly subject to global export.

#### Nutri

The Nutri activity contains production of fishmeal and fish oil, produced from offcuts available from the processing in Grøntved Pelagic.

#### **VAP**

The VAP activity contains finished consumer products sold under the brand Klädesholmen and private labels.

NOK thousand	Pelagic	Nutri	VAP	Q3 total

Contribution margin	40 264	4 417	10 104	54 785
	Pelagic	Nutri	VAP	YTD total
Revenues	356 529	80 795	122 450	559 774
Cost of goods sold	-194 295	-75 084	-76 378	-345 757
Contribution margin	162 234	5 711	46 072	214 017

### Note 3 | Goodwill

Late June 2021 Grøntvedt acquired the Swedish herring specialist Klädesholmen Seafood AB. And as part of several transactions the Grøntvedt Group was established, and Goodwill arose. The cash generation units for goodwill are both Grøntvedt Pelagic and Klädesholmen Seafood, but mainly Grøntvedt Nutri. The final allocation of goodwill is not completed yet.

NOK thousand	Net carrying value at 30.09.2021	Useful economic life	Amortization method
Goodwill	860 381	10 years	Linear

#### Note 4 | Inventory

NOK thousand	Pelagic	Nutri	VAP	Total
Revenues	527 581	4 681	75 483	607 745

#### Note 5 | Financing

NOK thousand	30.09.2021	30.09.2020	31.12.2020
Bond loan	600 000	0	0

#### Interest terms

Grøntvedt's interest terms are NIBOR 3 month plus 5.25 per cent. The interest is calculated and paid each quarter on the 23rd. (March, June, Sept, Dec). Due date of the bond is 23 September 2024.

#### Covenants

Equity ratio above 35 per cent and interest coverage ratio (EBITDA/ Net finance Charges) no less than 2.

#### Note 6 | Financial risk

#### Financial risk management

The group's activities expose it to a variety of financial risks, including market risk, credit risk and liquidity risk.

#### Market risk

#### Currency risk

Grøntvedt Group has only a minor currency risk since all raw materials are bought in NOK and almost all customers are invoiced in NOK.

#### Price risk

The market prices of the group's products will be affected by the global offer and demand for seafood.

The market prices of the group's raw material will be affected by the availability and numbers of buyers. Wild-caught fish is a renewable resource, whose quantity, will naturally fluctuate over time. The total legal catch will be limited to quotas set by the authorities, and the availability may change over time.

#### Credit risk

Pelagic industry is capital demanding due to natural seasonal fluctuations. The company's credit risk varies with the customers and the different sales agreements. This is a prioritized area for Grøntvedt, and the Group is working to establish good agreements to reduce risk for both buyer and seller.

#### Liquidity risk

Natural seasonal fluctuations require a sufficient access to financing during season. To support this Grøntvedt Group has established a bond loan and a RCF Facility at Handelsbanken. The RCF facility was in place in October 2021.

#### Note 7 | Transactions with related parties

Transactions with related parties take place at market conditions.
